

DESKSTAR®

3.5-inch High-Capacity Desktop Hard Drive

The Deskstar hard drive delivers colossal storage capacity and 7200 RPM performance in a standard 3.5-inch form factor. The Deskstar has a robust mechanical design that exceeds the industry standard for quality and reliability. Through a patented ramp load/unload design, the risk of shock damage is minimized by eliminating direct contact between the heads and disks, reducing wear and heat while improving overall drive reliability and power efficiency.

Hitachi Desktop hard drives are designed to the highest quality standards and contain field-proven components. Hitachi provides worldwide technical support and integration services to enable global customers to bring their products to market quickly.
